WARNING: Harken, Inc. products are intended for use in mountaineering, rock climbing, fire/rescue, industrial access, and technical rope work. These activities are inherently dangerous and present serious risk of injuries and/or death. Improper use, negligence, failure to obtain qualified instruction, product abuse, lack of proper care and maintenance, and use of product beyond intended range will significantly increase these risks. By using this product, you assume full responsibility for all risks, damages, liabilities, or injuries/death which may result from the use of this product. Please follow instructions and adhere to all applicable safety standards while using this product. User instructions may be found on our website at: www.harken.com/safetyandrescue
